

Skagit County

<http://www.skagitcounty.net>

Demographics		2002 Estimates (Except Where Noted)	Other Skagit County Facts				
Washington State Population:	6,041,700		Percent in Households where English is Spoken Less than "Very Well" (Population Age 5 and Above, 2000): 3.0% - 6.4%				
County Population:	105,100		Military Bases within County: None				
County Population Density (persons/sq mi):	60.57		Universities/Community Colleges: Skagit Valley College				
Total County Households:	44,078		Land area of County (square miles): 1,735.1				
2000 Per Capita Personal Income (Inflation-Adjusted to 2000 Dollars):	\$22,000 and above		Native American Tribes	Sauk-Suiattle Tribe	Samish Nation	Swinomish Tribe	Upper Skagit Tribe
Percent of county households with income below the poverty level, 1999:	10			Federally Recognized (Yes/No): Yes	Yes	Yes	Yes
Skagit County Government Legislative Authority			Size of Tribal Land (Acres): 96 (includes area in Snohomish County)				
			Reservation or Land Trust Population, 2000: 45				
Type of Body	Board of County Commissioners		Treaty or Reservation Instrument: Purchase, 1982				
Number of Members	3		Not indicated in Office of Financial Management data source.				
Term	4 years		Treaty of Point-No-Point, 1855				
Meeting Date and Time	Each Monday and Tuesday for regularly-scheduled agenda items, 11:00 am		Treaty of Point Elliott, 1855				
Meeting Location	Commissioners Hearing Room		Executive order, 1974				

Populations and Land Areas for Skagit County Municipalities, 2002

Unincorporated Population (est. 2002)		12,555	
Incorporated Population (est. 2002)		2,045	
Municipalities	Population (est. 2002)	2002 Land Area (sq. mi.)	2002 Est. Density (pop/sq. mi.)
Anacortes	14,910	13.094	1,138.67
Burlington	7,190	4.029	1,784.58
Concrete	790	1.392	567.61
Hamilton	340	1.058	321.23
La Conner	775	1.524	508.45

Skagit County Ordinances and Resolutions Related to Solid Waste	
From Skagit County Draft Solid Waste Management Plan:	
Ordinance Number	General Ordinance Description
2002-0261	Updating SWAC membership
11125	Establishes a system of solid waste disposal in the county as a new Chapter in Title 12 of the Skagit County Code
12454	Amends some definitions in county code 12.16 and adds new section prohibiting disposal of hazardous and solid waste from outside the county at county facilities (Health Department)
17274	Update of Skagit County Code, Chapter 12.18, Solid waste handling and facilities.(Public Works)
Resolution Number	General Resolution Description
15414	Adopts the 1994 comprehensive solid waste management plan
11114	Established a citizen's solid waste recycling subcommittee
Note:	

Solid Waste Infrastructure in Skagit County

Permitted Solid Waste Handling Facilities in Skagit County – March 2004

Facility Type	Name	Public/ Private	Owner
Drop Box Facility	Sauk Drop Box	Public	Skagit County Public Works
Compacting Facility	Clear Lake Recycling Center	Public	Skagit County Public Works
Transfer Station	Resource Recover Facility	Public	Skagit County Public Works
Moderate Risk Waste Fixed Facility	Skagit Co TS - Recycling/HHW Collection Ctr - MRW	Public	Skagit County Public Works

Note:

Notes: None										

General Notes

- The above solid waste carrier information is portrayed **for WUTC regulated solid waste carriers only**.
- Categories of solid waste customers defined by the WUTC include: single family residential, multi-family residential and commercial. **Multi-family rates are not depicted here.**
- Categories of commercial solid waste collection service as defined by the WUTC include: "Container Service - Non-Compacted - Company-owned container"; "Container Service - Non-Compacted - Customer-owned container"; "Container Service - Compacted - Company-owned container"; "Container Service - Compacted - Customer-owned container"; "Drop Box Service - Non-Compacted - Company-owned drop box"; "Drop Box Service - Non-Compacted - Customer-owned drop box"; "Drop Box Service - Compacted - Company-owned drop box"; "Drop Box Service - Compacted - Customer-owned drop box". **The only Commercial rates provided here are: "Container Service - Non-Compacted - Company-owned container".**
- According to statute, Washington State cities have the authority to contract for solid waste hauling services and associated billing, or to provide their own municipal collection service. Counties have not been granted this option by the legislature. However, statute does direct the WUTC to require regulated solid waste collection companies to comply with the service levels set in the local solid waste management plan. The WUTC defines the service area and monetary collection rates for private firms that service all county residents, as well as for private firms that service those municipalities which do not provide garbage collection service or contract for such service.
- **Of the 280 cities in Washington, 187 take advantage of their option to contract for service or provide their own service. Consequently, the WUTC regulates the solid waste haulers that service approximately 49% of the state's population.** (This includes 40% of the state's population that resides in unincorporated areas, and 9% of the state's population that resides in incorporated areas.)
- Currently, there appears to be no complete tabulation of solid waste collection rates charged to residents of Washington State municipalities is available, and thus there is incomplete knowledge of the direct economic impacts of solid waste disposal on approximately 51% of the state's population.
- [A Certificate \(or "G-permit\) means the certificate of public convenience and necessity issued by the Washington Utilities and Transportation Commission](#) under the provisions of chapter 81.77 RCW for the operation of solid waste collection companies.
- A tariff names rates for the collection, transportation, and disposal of solid waste, and if noted, recycling and yard waste (a document outlining rates, terms and conditions for providing service.) While the G-permit provides an overall legal description of the geographical area in which a carrier is allowed to operate, a tariff defines rates for services and service areas within the geographical area defined in the G-permit. Further, tariffs define the rates a permitted solid waste carrier charges to its residential, multifamily and commercial customers

- 1) Data used here are gathered from individual facilities and consolidated into a main database from which this spreadsheet is derived. Referral to the actual report forms is suggested in order to resolve questions or before drawing conclusions.
- 2) Facilities which show zero production are for year 2002 only. Production amounts can vary by large amounts from year to year depending on lagoon cleanout operations, etc.
- 3) For the categories related to TRANSPORT TO and RECEIVED FROM, tonnage sums are totaled and reported in parentheses if the sums are different from that reported by the facility. Reasons for discrepancies are varied and need to be investigated on an individual basis if needed.
- 4) The term "ctd." means that the data for the facility is continued in another column where extra lines were used so that additional data could be included.
- 5) WWTP = Waste Water Treatment Plant; STP = Sewage Treatment Plant; BS = Biosolids; LSP = Lime Stabilization Plant; POTW = Publicly Owned Treatment Works.

Skagit County Solid Waste Priorities and Needs for the Near Future:

Public Works:

- 1) Maintain a viable solid waste system in Skagit County.
- 2) Continue to operate a publicly owned transfer station.
- 3) Continue to provide all current programs (i.e. litter control, education, hazardous waste etc).

Jurisdictional Health Department:

- 1) Ensure a solid waste system of facilities and programs that protect public health and the environment.
- 2) Ensure adequate funding and staff to regulate and educate solid waste facilities and programs.

Skagit County's Projected Solid Waste Income and Spending, 1999 (as compiled by Jeff Kelly-Clarke, Director, Snohomish County Public Works)

Spending

Total Spending	Waste Handling*	LF Monitoring	Waste Reduction and Recycling	Moderate Risk Waste	Planning	Administration	Debt Service	Other	Capital Facilities/Closure	To Fund Balance	Operating Budget
\$8,010,062	\$5,708,587	\$232,807	\$90,280	\$118,333	\$20,000	\$305,982	\$1,088,430	\$445,643	\$0	\$0	\$8,010,062
